

January 29, 2026: On the Police and Criminals BOTH Being Used to Harass Our Home

Just for the public record to truly understand what it is that Donald Trump chose to do to his strongest supporters: We are now being targeted for harassment in the 200 a.m. - 400 a.m. hours by both criminals racing loud engines around our house and cops sounding their sirens (an hour later).

Every time we lay down to sleep Donald's team sends another harassing noise maker past our home. All of this was to prove his 'power' over our life. Now, the old sadist literally just intends to be more burdensome to me than my voice is to him.

That is who and what Donald evolved into over the home of two people that donated money to his campaign, encouraged our families to support him, publicly supported him, and even ran and was elected to public office to rally the neighborhood on behalf of his efforts to lead America to be 'great' again.

The old man lied his ass off to us all and has completely lost the way to greatness altogether. FUCK YOU, DONALD CHUMP. YOU ARE THE TINIEST BITCH I EVER FUCKED!
